Experience

Full Stack Developer Intern - (Current)

Catalyst Quiz Corp

13 Feb 2021 - Present

- Working as a MERN Stack intern for the company.
- Developing the Frontend for the existing Website using React and framework like Material-UI.
- Creating the data schemas and controllers.
- Developing the Backend for the existing Website.

Web Development Intern - (5 Months)

Backmarker Sports

1 March 2020 - 15 July 2020

- Worked as a web developer on a real-time project. I was a part of the front-end team and the website team. With our team work we were able to achieve our goals successfully.
- I designed the Website for the company.
- I designed the frontend screens for the web application.

Projects

EZNews - A Voice Enabled News Application

Alan AI

- This voice enabled news application allows the users to go through the various news snippets with voice commands, without having to actually read them.
- Key Features
- News Reader
- Covid19 Statistics
- Discussion panel

Covid-19 Tracker

API

- A covid19 tracker which shows the Number of cases, Number of deaths, Number of recovered persons of different countries. Also a different page for statistics of India
- Used Covid-19 API to fetch the details.
- Used React Router Dom.

Instagram Clone

- I made a clone of Instagram with the help of React.Js and firebase.
- I added different features like User authentication , Adding Posts , Adding comments to different posts and added a simple UI which is completely responsive for different devices.

Hobbies

- Listening to Music
- Gym Workouts
- Tennis (state)
- Watching Movies
- Gaming
